Analysis
Key finding
Output
DSCNet + DSConv
DRIVE
CHASE_DB1
86 training runs
Implementation check
Batch-invariance test
81.7 → 18.3
Dice (%) when tiles are batched
Fair comparison
5 seeds, validation-only
−0.15 to +0.01
Plug-in gain over DSCNet
Evaluation choices
Re-scored on the same runs
up to +0.56
Dice gained from evaluation choices
Public-code audit
11 ports, 12 pipelines
4/11 · 2/12
Defective ports · test-set selection
Recommendations
Validation-only selection
Equal tuning budget
≥3–5 seeds, paired tests
Capacity-matched control
Batch-invariance unit test
